Crowds Jam Ninth Street Store!

Since the announcement made by Friedlander Bros., 428 9th St. N. W., last Friday, of a stupendous underselling sale of genuine \$15 to \$20 Palm Beach Suits at \$11.75, the store has been literally packed to the doors. This long established firm declares this to be a most remarkable money-saving event and judging from the enthusiasm shown, hundreds of Washington's thrifty men are saving immensely on summer wearables. Every suit shown bears the original palm beach label and each sale made means genuine economy for the purchaser.

Remember the place—Friedlander's, 428 Ninth N. W.—the crowds will show the way!

THE UNITED STATES SHIPPING BOARD EMERGENCY FLEET CORPORATION WASHINGTON, D. C.

Invites Tenders on MANILA ROPE

Sealed bids will be received until July 20, 1921, 2:00 P. M., and then will be opened and read publicly in the office of L. Van Middlesworth, Manager, Purchasing Department, Division of Supply and Sales, Room 3807, Navy Building, 19th and B Streets N. W., Washington, D. C., for furnishing approximately two hundred seventy-five thousand (275,000) pounds of MANILA ROPE.

Proposal forms and other information may be obtained from Manager, Purchasing Department, Division of Supply and Sales.

The Board reserves the right to reject any or all bids.

Sealed bids should be addressed to L. Van Middlesworth, Manager, Purchasing Department, Division of Supply and Sales, Room 3807, Navy Building, 19th and B Streets N. W., Washington, D. C., and indorsed: "Sealed Bid for Manila Rope. Do Not Open Until July 20, 1921."

for Summertime —and all time!

DALY'S HEALTH TONIC At All Peoples Drug Stores

Widening the Field of Local Advertising Endeavor

The Washington Times has completed arrangements for the accommodation of local advertisers' early copy in that part of its "country circulation" sold throughout the states of Maryland, Virginia and West Virginia.

This will give to local merchants an opportunity to increase their field of advertising endeavor without increasing the advertising expense used to cover Washington and the suburbs.

Philadelphia merchants have long enjoyed an out-of-town patronage that comes near duplicating their city trade and all of the "Quaker City" newspapers have accordingly developed "country" circulations that rival their city deliveries in size.

Beginning Sunday July 17th

The Washington Times will include the advertising displays of local merchants throughout all its Sunday editions, provided copy is supplied to this office by 6:00 p. m. the preceding Wednesday.

Copy received up to 6:00 p. m. the preceding Friday will obtain the full local circulation press run as heretofore, including the edition sold on the streets of Washington at 7:30 p. m. on Saturdays.

PASTOR CONDEMNS DANCE HALLS FOR RUINATION OF GIRLS

Survey Shows They Are Factor in Downfall of Youth, He Says.

PONCA CITY, Okla., July 12.—The causes for the downfall of girls, at what ages they fall most frequently, and to what extent the home is to blame, form the interesting parts of a questionnaire, national in its scope, which has just been completed and the results released for publication by the Rev. E. C. Cameron, pastor of the Christian Church at Fairfax, and now finishing his studies at Phillips University. Mr. Cameron made this survey with the assistance of F. A. Wellman, professor of history at Phillips University.

"I tried to cover the entire United States," says Mr. Cameron, in announcing the results of his questionnaire.

Cub Reporter, 7, Tries To Interview Mule—And Gets Results

INDIAN HEAD, Md., July 12.—Seven-year-old Donald Shelton aspires to be a newspaper man. At least, he did.

Believing "practice makes perfect," he recently assayed the role of the nervy cub reporter. The early start now seems to have relieved Donald of his lofty, or deep, aspirations.

He interviewed a mule. Rather—he tried to interview a mule. The mule was obstinate. Thinking, as cub reporters do, that a little moral suasion might aid, Donald got a stick and tickled the mule on a rear leg.

It humored the creature. He giggled, "Hee, haw," and stretched the hoof.

The stretch tickled Donald under the chin. Donald now has fewer teeth. He has "sworn off" interviewing.

naire, which was sent to homes that receive fallen girls and care for them. "and I did succeed in eliciting responses from thirty-four States. The great majority of them homes are located east of the Mississippi."

Mr. Cameron believes that the dance hall has a lot to do with the ruination of girls and made that point an important one in his questionnaire, which showed in part:

Eighty-two per cent. of girls in receiving homes are fifteen, sixteen, seventeen and eighteen years old.

Twenty-three per cent were sixteen years old, which seems to be the most dangerous age.

SPAIN EXPECTS BOOST IN BREAD PRICE SOON

MADRID, July 12.—Another sharp rise in the price of bread throughout Spain is threatened, owing to the decision of the government to cease furnishing cheap wheat to millers and bakers, and after July 15 to withdraw the subsidy now paid them because of the high wages being paid. Wheat in the open market now can be obtained below the Government price of 62 pesetas per 100 kilos, but the bakers argue that the cost of producing the bread compels them to raise the price of the finished loaf.

Much discontent is shown among the poorer classes over the prospect of dearer bread, especially as virtually every other ordinary article of food has recently risen in price.

VILLAGE IN PANIC AS SNAKES BREAK LOSE

WELLSBORO, Pa., July 12.—During the street carnival at Wellsboro last week, two rattlesnakes escaped. A small one was recaptured, but the Kohinor, "the largest in captivity," made his getaway. People of the vicinity were wary about working in the gardens or among shrubbery, and also kept their screen doors closed, although they were assured the serpent had had its fangs extracted.

E. R. Mulford found the snake dead. Walter Sherwood's corn patch several days later.

THREE NAMED AIDES TO LASKER ON SHIP BOARD

Chairman Lasker, of the Shipping Board, has named the following men as assistants in his plan of reorganization:

H. A. Frye, Los Angeles and San Francisco, to be third vice president in charge of shipping operations; J. B. Smull, New York, to be chief of operations; W. J. Love, New York, to be vice president.

MEDBURY

Says if You Are Going on a Camping Trip and Expect to Catch Some Fish for Breakfast, Take Some Ham and Eggs Along with You

By JOHN P. MEDBURY.
upon you to give them worms. They can't go out and dig them themselves.

No man ever went to his front door and saw a fish digging up his garden.

If he did, then he should change his bootleggers.

If you do happen to catch a fish don't get a swelled head over it. The fish was probably going to commit suicide anyway.

Copyright, 1921, by Premier Syndicate, Inc.

The best time to go fishing is the first thing in the morning. This seems cruel because you have to get the worms out of bed so early.

Even a worm hates to get up at 4 o'clock in the morning, and they're always yawning when you take them out of the ground.

There is nothing more pathetic than the sleepy look on a worm's face before breakfast.

It's best to dash cold water in his eyes so that he'll get wide awake and enjoy the automobile ride from the hotel to the lake.

But before you leave the hotel you want to find out if the fish are biting and whether they use daylight-saving time or standard time.

It's a good idea to do your fishing near a telephone office, otherwise the fish may not have a clock and won't know what time it is.

If you are in a hurry and have to get back to the city, you can feel the fish by setting the clock ahead, but this is not considered good sportsmanship.

Before you catch a fish you always have to give him six or seven worms for nothing.

Some fish will eat all of your bait and never be caught. After you donate a couple of dozen worms the least the fish could do would be to pay for your gasoline.

Park your machine right near the lake where the fish can see it, otherwise he may think that you walked down there.

You can't blame the fish for not wanting to be caught. He doesn't want to go to sleep in the lake and wake up in a frying pan.

When he's chilly, he'll make himself comfortable in the sunshine. No fish wants to get warmed by a gas stove.

If you are depending upon catching some fish for breakfast always take some ham and eggs along with you.

Never count your chickens before you pull them out of the water.

Never worry about the fish swimming to some other part of the lake. They'll always stay right where you are as long as you keep feeding them worms.

Remember that the fish depend on you.

SNAKE EATS 4 SPARROWS; MEAL ENDS WITH DEATH

CONSHOHOCKEN, Pa., July 12.—Robert Hunsicker, residing near here, started to pick up a bird box that had fallen from a shed in his back yard, but sprang back when he saw the head of a blacksnake protruding from the hole in the box.

Hunsicker killed the snake with a stick, but when he tried to pull it out of the hole it stuck fast. He was obliged to remove it.

A big lump in the snake's stomach, the result of a feast on four young sparrows, had prevented the serpent from escaping through the hole, which was plenty large enough to admit its body when it raided the nest.

STEER, CHAZED BY HEAT, TERRIFIES TOWN'S FOLK

POTTSVILLE, Pa., July 12.—A steer being fattened at the county home at Schuylkill Haven became crazed by the heat yesterday and after being chased over the mountains and part of the town was captured only to drop dead from exhaustion. It was valued at \$250.

Chased by a posse, the steer jumped over fences and gardens in Schuylkill Haven as nimbly as a deer, and terrifying residents but was finally lassoed and was being led home when it dropped dead.

349 DEVASTATED TOWNS GIVEN FRENCH WAR CROSS

AMIENS, France, July 12.—Three hundred and forty-nine municipalities in the department of the Somme, which were damaged, devastated or entirely destroyed during the war, were awarded the war cross in a ceremonial here yesterday.

The presentations were made by Minister of War Barthou, assisted by Marshal Foch. The United States was represented by Colonel T. Bentley Mott, military attaché at the American embassy.

Stomach on Strike 20 Years Etonic Settled It!

"Etonic is wonderful," says G. W. Burton. "I had been a sufferer from stomach trouble for 20 years and now I am well."

Etonic gets right after the cause of stomach troubles by taking up and carrying out the acidity and gases and of course, when the cause is removed, the sufferer gets well. If you have sourness, belching, indigestion, food repeating or any other stomach trouble, take Etonic tablets after each meal and find relief. Big box costs only a trifle with your druggist's guarantee.

Bad News For John D. Cheap Substitute For 'Gas' Found

By International News Service.

Director Stratton of the Bureau of Standards, said today automobilists can look forward to freedom from high gasoline prices.

He announced that experiments just made have shown that benzol, a by-product of coke plants, can be mixed with gasoline, and produce a fuel for autos, far less expensive than the present gasoline.

Director Stratton said the mixture has remarkable possibilities.

DOG FINDS MISSING CAT PAL IN CHURCH ORGAN

MIDDLETOWN, July 12.—A pet cat belonging to W. C. Cookerly strayed into the Lutheran Church and got into the large pipe organ. For five days the cat was imprisoned in the organ, and in its efforts to release itself so damaged the interior an organ builder had to be summoned to make repairs.

Mr. Cookerly, suspecting that the cat might have gone into the church, took his dog (the cat and dog being inseparable companions) into the church, and the dog located the cat in the organ.

NURSE BETRAYED, CREMATES INFANT AND TRIES TO DIE

Neighbor Plucks Dead Child From Blaze and Finds Mother in Poison Coma

By International News Service.

KANSAS CITY, July 12.—Lying on a bed in a local hospital, Iva Ross, twenty-three, a graduate nurse, sobbed today because doctors told her she would live. Yesterday she attempted to cremate her infant child and then drank poison at a physician's home where she had been rooming.

A neighbor saw the nurse place a bundle of papers into a trash burner at the rear of the house. Detecting an odor she investigated and found the charred body of a baby. Miss Ross was found later in the cellar of the house, unconscious from taking poison.

Today she stated she had been secretly married, but refused to divulge the name of her husband, who she said had deserted her. She said her baby was born dead early Saturday.

unday. The mother hid the body and waited until she had strength to carry it concealed in rags and newspapers, to the trash burner in the yard.

No charge has been filed against the woman by the police today.

Use Coconut Oil For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Mulitified coconut oil shampoo (which is pure and entirely greaseless), is much better than anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls of Mulitified will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get Mulitified coconut oil shampoo at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months. Be sure your druggist gives you Mulitified.
